

MAY 20 1954

Assistant Director for Collection and  
Dissemination

Director of Training

Intermediate Intelligence Course (Scientific)

1. The Intermediate Intelligence Course (Scientific) has now been offered three times, and has been completed by ten analysts and intelligence officers from OGD. They have made a distinct contribution to the curriculum through oral briefings describing their work, and in their active participation in seminar discussions.

2. A contribution of particular merit is the discussion led by Mr. [REDACTED], your Executive, on the services of common concern which OGD performs. It has proved both informative and interesting, and student comment has been most complimentary. I wish to express my appreciation and thanks to Mr. [REDACTED] for his outstanding presentation.
